Gerard Raverty

Brief Resume of My Qualifications:

With more than 35 years of experience in the motor industry, I have built a career grounded in technical expertise, operational management, and customer service excellence. My early years were focused on body repair and refinishing, developing a strong understanding of process efficiency, quality assurance, and workplace safety.

For the past five years, I have operated my own consulting business, providing specialist advice to automotive repairers and associated businesses. This work has centred on improving business performance through process optimisation, management controls, staff development, and enhanced operational systems. My focus is always on helping businesses operate more effectively, profitably, and sustainably.

Throughout my career, I have managed commercial and customer relationships at every level, from individual clients to major corporate partners. I take pride in building trust, meeting expectations, and fostering collaboration across teams and stakeholders.

Key Motivating Factors for Nominating:

As a member of the Club for more than 30 years, I have a deep appreciation for its culture, achievements, and the sense of community it fosters. I am motivated to contribute my extensive business and operational experience in a governance capacity, working collaboratively with fellow Directors to support sound strategic decision-making and continuous improvement.

The Club is in a strong position, and I see this as an opportunity to build upon that success, ensuring that the strategies, systems, and structures we develop today provide a foundation for long-term sustainability. My focus is on leveraging opportunities, strengthening management practices, and helping the Club remain progressive, member-focused, and financially secure well into the future.

Above all, my motivation stems from a desire to see the Club's strategic direction remain clear, consistent, and focused on ensuring its continued growth, relevance, and success into the future.
